Title:

Comments: This plan is just silly. Pioneer Ridge is a very underused area. Runs are narrow and often icy. The area is often closed because moose are seen in the area. The plan nets little or no terrain for beginner or moderate intermediates. I have friends and neighbors who are on Ski Patrol and Search and Rescue. They tell me that rescues of skiers rescued from the Fish Creek area (accessed from Pony Express) are some of the most technical and difficult they do. Won't this just make this situation worse? Save our raptors. Save our large mammals. Save our trees. Save our water. Don't approve this goofy plan!
