First name: Joseph

Last name: White

Organization: Culpeper Area Mountain Bike Organization

Title: President

Comments: I support the addition of sustainable and easily accessible trails in the Narrowback area of GWNF. The Narrowback Trail system is a favorite destination for members of my mountain biking club, and it's often where we take those beginner and intermediate mountain bikers who are ready for a new challenge. The trails there are readily accessible and friendly to those of all skill levels. More of these trails would only increase the incentive to make this area a destination, would increase interest in local campgrounds and restaurants and bike shops in the area as well.
