Last name: Anderson

Organization: The Wilderness Society

Title: Senior Policy Analyst

Comments: On behalf of The Wilderness Society, I request to be an interested party in the objection process for the Helena-Lewis and Clark National Forest plan revision. The Wilderness Society has submitted substantive comments throughout the planning process, including during the comment period on the Draft Plan and EIS. We are interested in participating in objection resolution meetings regarding the following issues:

*Motorized and/or mechanized recreation access and suitability determinations in recommended wilderness, primitive recreation opportunity spectrum settings, the Badger Two Medicine Area, and the Elkhorns Wildlife Management Unit.

*Land management plan direction related wilderness, wilderness study areas, recommended wilderness, and inventoried roadless areas.

*Areas recommended for wilderness designation
