Comments: We are experiencing a severe drought now and the idea of building a HUGE addition onto our already big ski area is ridiculous!!! Where will you get the water for all your snow making machines??? And what about the wildlife you'll be displacing??? You definitely need to get a ENVIRONMENTAL IMPACT STATEMENT!!! I am 100% aginst this horrible idea, and hope it won't happen!!! You (the National forest Service), I thought, was here to protect our beautiful forest...not destroy it!!!!
