First name: Cactus

Last name: beauregard

Organization:

Title:

Comments: As an avid hunter and Backcountry skier I strongly disagree with the need to expand ski area boundries into the fish Creek canyon, and expanding summer use via gondola in sunshine area. Opening the upper mountain to summer bike traffic would be detrimental to already pressured elk. Also as an avid Backcountry skier, opening the fish Creek canyon to the public eliminates the only access to legitimate Backcountry skiing.

Thank You

Cactus Beauregard
