Title:

Comments: 21" rule

Drop this rule[hellip] please!

It's sad to think that such a compromise was adopted given the known consequences.

I have lived in Bend for 45 years. In 1990 the Awbrey Hall fire ripped through my neighborhood, a forested site logged 100 years ago and now way overstocked with trees. Twelve homes were incinerated. I am too familiar with the niceties of overstocked stands of trees.

Thank you for proposing the retraction of the 21" rule!

Sincerely,

Janice Spitz
