Comments: Protect habitat and list American bison as a species of conservation concern.

Dear Supervisor Erickson,

I wish to voice my STRONG opposition to your decision to not include habitat standards for America bison in the Custer Gallatin land management plan.

I also am disappointed and upset with Region One Regional Forester Leanne M. Marten's decision for NOT designating American bison a species of conservation concern on our National Forests in the Northern region.

I ask you to PLEASE include habitat standards in the Custer Gallatin land management plan for American bison to FREELY roam our National Forests in the Yellowstone ecosystem -- it is their home.

Thank you for considering my thoughts on this issue that is very important to me and so many others who care deeply about our native wildlife and their right to continue to exist -- especially such an iconic, magnificent species as the bison.

Sincerely,

Grace Holden
