Title:

Comments: Dear Sirs,

I have been fighting with The Buffalo Field Campaign for many years now, as have other organizations for the protection and respect Our National Mammal deserves!

Buffalo are Iconic animals and a symbol of this Country and a Part of Our History.

We already almost eradicated them once-and now it the TIME to DO YOUR JOB-Keep YOUR Oath and Duty to the Park and the American People-Indigenous Tribes to allow buffalo to roam their historical migration routes.

Many hundreds of thousands of People demand that YOU END the Hazing, Trapping and shipping to slaughter of Our National Mammal and treat these species of conservational interest as the Elk are treated!!

I WILL Demand that there is a CHANGE within the Buffalo "Management" Committee to do this ONCE and FOR ALL!!!

I also want you to know that I will NOT be visiting Yellowstone, Montana, Wyoming until Our Iconic Buffalo are SAFE EVEN when they step out of the Parks and surrounding areas!!!

I Demand and Urge for the REMOVAL of Cattle and other livestock from the areas where Buffalo inhabit!

The cattle ARE evasive species-they destroy plant life, cause erosion and also create more fecal waste that spreads throughout the ecosystem.

Since COVID is a Zoonotic disease and we should consider this ANOTHER WAKE UP call for Us to interact and treat our Natural World and the animals we share it with with More Care-with GOOD, SOUND SCIENCE and the BEST NON-LETHAL Methods available!!

PLEASE HONOR YOUR OATH-PROTECT the Integrity, the Balance and the Lives of Buffalo ONCE AND FOR ALL!!!

PLEASE!
