Comments: To whom it may concern,

I simply wanted to voice my support for the Tillman Trails Connectivity Project. I know that you have a very positive relationship with members of the SVBC and that they do incredible work in the National Forest and elsewhere. My family and I thoroughly enjoy these trails 9 months out of the year and as a tax payer I would very much like to see this project move forward. Thanks for giving me the opportunity to share my perspective. Keep up the good work and I hope to hear good news about this project soon!

sincerely,

Andrew D. Barnes
