Last name: Buckley

Organization:

Title:

Comments: I would like to thank the Forest Service for all of the work that has gone into the Forest Plan. I was especially excited to see that the Forest Plan includes the following:

Recommended wilderness in the Crazy Mountains and recognition of the area as important to the Crow Tribe. Maintaining the primitive character and management of the roadless areas in the Ashland Ranger District (Tongue River Breaks, King Mountain, and Cook Mountain). Incorporating many elements of the Gallatin Forest Partnership, including recommended wilderness for the Gallatin Range..

Statement of issues and/or parts of the plan revision to which the objection applies:

My objections apply to the following issues in the Custer Gallatin Land Management Plan:

Cowboy Heaven (MG-CHBCA)

Crazy Mountains Backcountry Area (BC-CMBCA)

South Crazy Mountain Recommended Wilderness

Chalk Buttes Backcountry Area (SX-CBBCA)

Pryor Mountains BCAs

Elimination of recommended Wilderness, including Lionhead

Hyalite area (MG-HREA)

Concise statements explaining the objection and suggestions on how the proposed plan should be improved:

Cowboy Heaven (MG-CHBCA):

I strongly object to Cowboy Heaven not being recommended for Wilderness. The importance of public wilderness can't be underestimated. We owe it to future generations of Americans to protect it for them. Please incorporate this important element of the Gallatin Forest Partnership Agreement by recommending Cowboy Heaven for wilderness in the final plan.

Crazy Mountains:

The Crazies are both an important wilderness, and spiritual place. The proposed Backcountry Area should be modified to prohibit mechanized use. There are no existing mountain bike trails in this area and leaving the door open for the trails to become designated down the road only invites conflict where there doesn't need to be any. Too few trails are protected for just hikers and horses. And with the advent of mountain biking we are seeing even fewer. We need to protect these important recreational opportunities for hikers. I feel very strongly that the area should include a suitability component similar to the Bad Canyon backcountry area: The backcountry area is not suitable for mechanized transport, except use of game carts.

I would also like to see the Crazies BCA expanded east to include sections 4, 22, 26, and 34. If the proposed East Crazy Mountains land swap goes through, this will be a contiguous area and should be managed consistently with the adjacent backcountry area.

I was extremely pleased to see the Crazies receive some recommended wilderness protection. While I wish it was much bigger, I understand that there are many interests Supervisor Erickson is balancing. However, I ask that the South Crazy Mountains recommended wilderness be expanded east. That would help to make a larger contiguous recommended wilderness area.

Chalk Buttes:

The Chalk Buttes are another important place where I would like to see improved language in the backcountry area plan components. The Chalk Buttes are some of the few rare properties where hikers can explore off trail experiences. The addition of mountain biking to this area would destroy its character. Similar to the Crazy Mountains, there are no existing designated mountain bike trails here. The Backcountry area should include the following suitability component in order to protect the current wild character of the area: The backcountry area is not suitable for mechanized transport, except use of game carts.

Pryor Mountains:

While I appreciate that recommended wilderness was expanded in Alternative F, I would like to see Punch Bowl and Big Pryor also recommended for wilderness. We need to protect as much of the Pryors as possible for wilderness. Once it's opened up it will be lost forever. For these reasons, I request that the Big Pryor and Punch Bowl areas be recommended for wilderness in the final plan.

Elimination of recommended Wilderness:

I was extremely disappointed that the Forest Service decided to eliminate 26,135 acres that had been previously recommended in the 1986 and 1987 plans respectively. I am particularly disappointed to see that the Lionhead recommended wilderness has been eliminated. The extremely short sighted move is to eliminate wilderness designation. We need to push forward with these recommended wilderness areas, such as Lionhead, to protect them for our children and grandchildren.. Please consider reincorporating the Lionhead, Burnt Mountain,

Republic, Mystic, and Line Creek Plateau as recommended wilderness in the new plan. It is important that we continue to protect these areas as recommended wilderness because the wilderness character has not changed there since they were recommended in the old plans.

Hyalite:

I encourage the Forest Service to fully implement the Gallatin Forest Partnership agreement, including key elements of the agreement that would protect Hyalite. Currently the plan doesn't offer any protection for the South Cottonwood Area or Mount Blackmore. We need to protect areas like South Cottonwood and Mt Blackmore from logging and road building. As Bozeman grows it will be even more important that we keep critical recreational areas. One of the main reasons so many are moving to the area are for the outdoor lifestyle. It is important that these areas receive protection as the Gallatin Forest Partnership recommends.

In addition, I would like to see the Hyalite Recreation Emphasis area include the standard that was in Alternative C in the DEIS: Construction of new motorized trails shall not be allowed. It is very important that we ensure that the motorized footprint does not continue to expand because of the impact it has on the opportunity for high quality recreation for other users. There is plenty of motorized opportunity in Hyalite as is. Please include this important standard to ensure that Hyalite continues to be a place where users of all types can have high quality recreation experiences.

I appreciate that you listen to our concerns, and trust that you will take them into consideration. Many of us do this not for our own personal gain, but for the betterment of our communities. Thank you for listening.

Statement demonstrating the link between objection and prior formal comments:

I submitted a comment on the draft plan and draft EIS last spring. While I appreciate that many things I supported are included in the final plan, my objections speak to those priorities from my prior comments that were not included. Thank you for considering these objections that I believe could significantly improve the final plan.
