Title:

Comments: I would like to thank the Forest Service for all of the work that has gone into the Forest Plan. I was especially excited to see that the Forest Plan includes the following:

Maintaining the primitive character and management of the roadless areas in the Ashland Ranger District (Tongue River Breaks, King Mountain, and Cook Mountain). Ensuring recommended wilderness will be managed without non-conforming uses. Incorporating many elements of the Gallatin Forest Partnership, including recommended wilderness for the Gallatin Range..

Statement of issues and/or parts of the plan revision to which the objection applies:

My objections apply to the following issues in the Custer Gallatin Land Management Plan:

Cowboy Heaven (MG-CHBCA)

Crazy Mountains Backcountry Area (BC-CMBCA)

South Crazy Mountain Recommended Wilderness

Chalk Buttes Backcountry Area (SX-CBBCA)

Pryor Mountains BCAs

Elimination of recommended Wilderness, including Lionhead

Hyalite area (MG-HREA)

Concise statements explaining the objection and suggestions on how the proposed plan should be improved:

Cowboy Heaven (MG-CHBCA):

I strongly object to Cowboy Heaven not being recommended for Wilderness. There are very few areas of pristine wilderness able to be walked by man. This area must stay a wilderness to balance out the ecosystem Please incorporate this important element of the Gallatin Forest Partnership Agreement by recommending Cowboy Heaven for wilderness in the final plan.

Crazy Mountains:

The Crazies is important for the tribes and the land value itself. The forest needs to be left wild. The proposed Backcountry Area should be modified to prohibit mechanized use. There are no existing mountain bike trails in this area and leaving the door open for the trails to become designated down the road only invites conflict where there doesn't need to be any. Mountain biking is a deterioration of the land. These lands have not been set up for it nor do we want it to be. It is supposed to be enjoyed by enthusiasts who love nature as she is. Not to commercialize it. I feel very strongly that the area should include a suitability component similar to the Bad Canyon backcountry area: The backcountry area is not suitable for mechanized transport, except use of game carts.

I would also like to see the Crazies BCA expanded east to include sections 4, 22, 26, and 34. If the proposed East Crazy Mountains land swap goes through, this will be a contiguous area and should be managed consistently with the adjacent backcountry area.

I was extremely pleased to see the Crazies receive some recommended wilderness protection. While I wish it was much bigger, I understand that there are many interests Supervisor Erickson is balancing. However, I ask that the South Crazy Mountains recommended wilderness be expanded east. That would help to make a larger contiguous recommended wilderness area.

#### Chalk Buttes:

The Chalk Buttes are another important place where I would like to see improved language in the backcountry area plan components. Its rough lands are made for seasoned hikers. Putting bikes on here would endanger the hikers and bring injuries to bikers. The terrain is meant to be hiked not biked. Similar to the Crazy Mountains, there are no existing designated mountain bike trails here. The Backcountry area should include the following suitability component in order to protect the current wild character of the area: The backcountry area is not suitable for mechanized transport, except use of game carts.

#### Pryor Mountains:

While I appreciate that recommended wilderness was expanded in Alternative F, I would like to see Punch Bowl and Big Pryor also recommended for wilderness. The Pryor is a necessary natural first and should be included. It needs protections against commercialization. For these reasons, I request that the Big Pryor and Punch Bowl areas be recommended for wilderness in the final plan.

#### Elimination of recommended Wilderness:

I was extremely disappointed that the Forest Service decided to eliminate 26,135 acres that had been previously recommended in the 1986 and 1987 plans respectively. I am particularly disappointed to see that the Lionhead recommended wilderness has been eliminated. RW areas are few and far between. We have paid for the upkeep and care of these lands. Eliminating these areas is a financial hit the area probably wouldn't recover from. The

lands have been used for hiking and to stop it now is wrong.. Please consider reincorporating the Lionhead, Burnt Mountain, Republic, Mystic, and Line Creek Plateau as recommended wilderness in the new plan. It is important that we continue to protect these areas as recommended wilderness because the wilderness character has not changed there since they were recommended in the old plans.

Hyalite:

I encourage the Forest Service to fully implement the Gallatin Forest Partnership agreement, including key elements of the agreement that would protect Hyalite. Currently the plan doesn't offer any protection for the South Cottonwood Area or Mount Blackmore. We don't need more logging and commercialization on these lands. Make your money somewhere else. Depleting our natural resources is not an option. It is important that these areas receive protection as the Gallatin Forest Partnership recommends.

In addition, I would like to see the Hyalite Recreation Emphasis area include the standard that was in Alternative C in the DEIS: Construction of new motorized trails shall not be allowed. It is very important that we ensure that the motorized footprint does not continue to expand because of the impact it has on the opportunity for high quality recreation for other users. There is plenty of motorized opportunity in Hyalite as is. Please include this important standard to ensure that Hyalite continues to be a place where users of all types can have high quality recreation experiences.

You are supposed to be stewards of this land. You're supposed to protect the lands and the people that enjoy them. I suggest you keep commercialization out of this equation. No one but corporations want this

Statement demonstrating the link between objection and prior formal comments:

I submitted a comment on the draft plan and draft EIS last spring. While I appreciate that many things I supported are included in the final plan, my objections speak to those priorities from my prior comments that were not included. Thank you for considering these objections that I believe could significantly improve the final plan.
