Comments: I would enjoy more trails to hike & mountain bike on for all levels of experience of MTB & a variety of all kinds of trails would be awesome. I personally would like to see more cross country mountain bike trails rather than go fast down hill trails. Trails with some up hill technical climbing included for mountain biking. I have spent many years four wheeling the trails around Big Bear and have enjoyed trails like John Bull and Gold Mountain and now my favorite mode of recreational transportation is bicycles.
