Comments: Dear Forest Service, I appreciate the hard work you all do and specifically have done on this forest revision plan. I generally believe that more protection of wilderness areas needs to be included. Although I often ride a mountain bike, I think there is too much allowance here for mountain bikes specifically in the hyalite porcupine segment. I also think that South Cottonwood needs more protection and should be included in your new category of protected places. Thanks again for your work on this. Ned Hettinger
