Comments: I have a couple of objections to the draft Custer Gallatin Forest Plan. First, I would like to see a stronger plan for Hyalite, S. Cottonwood and Bozeman Creek. I would like to see the Forest Service implement the protections described in Alternative C instead of their proposals. Secondly, I would like to see the Forest Service adopt ALL of the recommended wilderness proposed by the GFP. I ask the Forest Service to implement the wilderness recommendations in Alternative C, which will provide very important conservation and recreation benefits. Thank you.
