Title:

Comments: I don't want to see Targhee get any bigger. There is already enough terrain on the mountain for the people who want to ski and snowboard. I don't want to ruin more of our mountains to ski slopes and have that be taken away from everyday use.

It's an eye sore, takes more away from wildlife, will create too much growth of which is already big, and take ground away from winter and summer groups, hiking and riding horses and put in into the hands of those that just want to make money.

Please do not allow targhee to expand!
