Comments: Do what you can to stop this big mine going through on the South Salmon. I have spent decades of my life on wild rivers. I've only spent a few months in Idaho and have not had the chance to run this famous wilderness river, but friends have told me of its beauty -both in surroundings, remoteness and whitewater.

A big gold mine will ruin the river and poison its fish. It happens over and over again.

Please don't let it happen again.
