Comments: THIS IS SHORT-SIGHTED CORRUPTION THAT WILL CAUSE FURTHER DESTRUCTIVE CLIMATE CHANGE AND DESTROY OUR FORESTS AND WILDLIFE.

"It was just over two months ago that a federal judge threw out the largest logging project we've seen in decades because the Forest Service failed to provide communities with basic information like where it intended to log," said Olivia Glasscock, an attorney at Earthjustice. "Nevertheless, the agency is back again with twin proposals for timber sales targeting irreplaceable old-growth trees in the same cherished national forest. Urgent action is needed to address the climate crisis, and that includes efforts to preserve the magnificent trees that absorb carbon. Unfortunately, these destructive logging plans will only make the problem worse."
