Comments: My husband and I visit the Portal area 3-4 months every year to enjoy nature. South Fork road is the main attraction for us. We are No longer able to hike, but here we can drive at snails pace, photograph Trogons, watch Ravens and Fox squirrels, and tons of beautiful birds. We look forward to visiting everyday. There are so few "special" places left for seniors to visit. The thought of closing the road during the time we are here each year is devastating. The result will be that we won't be renting facilities here anymore, nor spending money here. We invite friends to visit us and they will no longer be spending money here. South Fork road is THAT important to tourism in the Chiricahua's. DON'T close it EVER.
