Comments: I would like to register my strong support for the development of the proposed picnic (day use) area. Also, I wish to express my very strong opposition to the closing the road beyond the picnic area from March to June. To me this seems punitive to we lovers of Cave Creek who only get to visit the area occasionally and to do so have to travel great distances. Many of us are elderly and can not walk the extra two miles there and back to the trail head.
