Title:

Comments: Dear Sir/Madam

My wife and I have made many visits to the Cave Creek Canyon (dozens) starting in the 1990s and in all seasons. Further, I have participated in the annual Trogon count there and have donated to the Portal fire and rescue operation. This place is well worth your close attention.

In regards to the draft plan, I particularly object to the possibility of closing the South Fork Road during May and June and see little reason to close it during March and April either. You can always close it for short term/emergency repairs.

Sincerely  
Daniel F Doeppers  
emeritus professor  
University of Wisconsin Madison

Sincerely
