First name: Keith

Last name: Oberlin

Organization: Get Out And Trek

Title: Adventure Director

Comments: As a whitewater kayaker of 15 years and an outdoor business operator i enjoy access to clean outdoors. I'm shocked how quickly over the years some of my favorite areas to recreate are disappearing or being polluted by business activity. We can not allow more of these precious resources to be ruined.

The Stibnite Gold Project EIS #50516 should not be allowed to proceed as it sacrifices our beautiful w and ability for to enjoy the outdoors (something many of us need now more than ever). This is to great a cost.

Please say no to the Stibnite Gold Project EIS #50516
