Title:

Comments: Does the road being closed March thru June mean just the year of construction or is that every year. This is prime bird watching time.

Also the \$10,000 to \$15,000 maintenance per annum seems oppressive but I do not know what this entails.

Perhaps many of the costs could be absorbed by using volunteer time to clean, paint, etc. I don't live in the area but would be willing to do some minor things when I am in the area and would think most people with an interest in the area would be willing to help as well.

I am in favor of the project as long as it meets the specifications set out in the document to fit in to the environment. Most areas I have visited do not require a fee unless there is going to be an overnight stay.
