Comments: Hello there, I am writing about the proposed open pit gold mine along the Salmon river. As someone who has taken over twenty raft trips along that river, please don't allow mining. I have had numerous life changing event along the river. I met my partner, to whom I am now engaged and will be getting married to next spring. My friends and I usually take a trip to Idaho once a year to raft and to fish. Please don't allow this mine to destroy this pristine environment. I know I am just one person but it has a very deep place in my heart.

Thank you,
-Michael Newlands
