Comments: Gold mining is one of the most destructive industries in the world. With that said, let's please try to preserve our state's beautiful rivers. I am an Idaho native and this state is my backyard. I've grown up rafting the salmon river and so has my sixteen year old. We follow regulations of using fire pans, growlers, and not only picking up after our selves but people who were there before us. Please, please don't pollute our rivers with harmful wastes that will destroy our rivers precious ecosystems. Please give our rivers a chance so that younger generations can enjoy Idaho's "backyard". Don't turn the Salmon into another Snake river.
