Comments: The Salmon river must be preserved in its entirety at all cost! It's not only critical to the continuance of these species of trout and salmon, which have already suffered great loss of habitat and dwindling wild populations at the hand of these greedy land rapists, but it must also be preserved for the future generations. Generations who's future of outdoor recreation is already uncertain due to climate change and corporate greed. Where do these assholes get off! For god sake, have some principle
