Comments: I am once again appalled by and ashamed of our president who so flippantly cashes in profit in exchange for the environment and our planet which, by the way, is our home. I fully agree with Dan CannonL "Shame on the Trump administration's Forest Service for having the gall to continue to burden and overwhelm Southeast Alaskans with yet another needless and money-losing timber sale when we are in the midst of a pandemic and a controversial Alaska Roadless Rulemaking process," Put a halt to this timber project immediately.
