Title:

Comments: I have been a season pass holder at Targhee for 15 years and am in favor of the expansion. The Targhee area is one that holds many opportunities for enjoying the wilderness setting. I've enjoyed skiing, snowshoeing, hiking, biking and just enjoying the spectacular views and scenery for many years and hope to continue. The Tarhgee management has shone to be good custodians of this area and I believe they will continue. I am looking forward to this expansion to allow broader access and the opportunity to share with many others who will love this area as myself and family have for many many years.
