Title:

Comments: This is a disaster in the making. The East Fork of the South Fork Salmon AND the South Fork Salmon will be irreparably damaged with this proposed devastation. And they wrote their own EIS? Do your job and protect OUR public lands. The gold profit will disappear to Canada as will the LLC when the extraction is done. The rehabilitation will NOT be done. How many times does this scenario have to re-happen before you learn? The bankruptcy papers are already ready to file. Wise up and do your job. The jobs will go to itinerant pro miners, not locals. Take a few minutes to look at Thompson Creek and Jordan Creek garbage piles and do not be fooled AGAIN.
