Comments: I am opposed to any expansion of Targhee Ski Resort. This area in my opinion should be kept in its natural state for both animals and people. There is a huge ski resort in Jackson already, and not only did it change the landscape, it changed the surrounding community. If Teton Valley Idaho could remain agricultural and natural both people and humans would benefit from this. Please keep Targhee as it is, it is such a wonderful family friendly place, it would be a real shame if this turns into "Vail".
