Comments: The coaster will open the ski area up to summer recreation. That's a good thing.

The chair lift should also be open to mountain bikers. That's typical of other ski areas.

The Capulin tubing area was opened about a month after there was adequate snowfall last year. There's a lot of recreation being withheld at Capulin. I'd like the area to be opened earlier and closed later. We also missed out on tubing this April during a big snow.
