Title:

Comments: I am very concerned about the resort's ability to provide enough parking for the additional skiers. If additional parking is obtained where is the extra storm runoff going to go. Into the valley's aquifer.

On days of one-in/one-out just the idling of a long line of cars creates a air pollution hazard of its own. There is no transit lane. So the shuttle sits in line like everyone else. Certainly no incentive to take it especially in the age of Covid.

As well, where are all the extra employees going to live. They are, or going to be, priced out of Teton Valley. Currently there's a dearth of affordable housing even at this time.
