Title:

Comments: Dear Payette National Forest,

This is a request you extend the DEIS comment period to the full 120 days allowed by law.

The DEIS and its supporting documents are extremely complicated. The process outcome will affect the area for generations. Public input through hearings has been curtailed by the Covid 19 pandemic. So it makes sense to seek as much written public comment as possible. In these circumstances, choosing the minimum rather than the maximum public comment period for no apparent reason is arbitrary.

Sincerely, Sally Nutt
