Comments: I strongly oppose an alpine slide or mountain coaster in the sandia mountains, even within the ski area. I believe this would be highly detrimental to local wildlife, Sandia mountain culture, and the environment. I regularly hike in the mountains including within the ski area boundary. Wildlife is abundant in this area including turkey, bear, and deer. These mountains are not the place for such an entertainment venue. These mountains are small and the ecosystem is fragile. There is already a strain with the amount of weekend visitors, motorcycles, hikers, mountain bikers, etc. I do not believe this is a positive addition to the mountain. I would be deeply saddened by the construction. I believe this would bring a large number of people and subsequent litter and trash which would overwhelm the home of the local animals as well as ruin the mountain for other recreation including hikers and those weekly nature with the peace and quiet it affords. A coaster would destroy the nature of the mountains and I would like to see them kept wild. Thank you.
