First name: Laura

Last name: me

Organization:

Title:

Comments: 1) The traffic on 536 is much heavier than it used to be. How much more traffic can that road handle?

I'm assuming not much.

2) I'm concerned about extra fire danger.

3) Does the Forest service have the personnel to oversee this?

4) I haven't seen estimates for how much money NM people will actually make. NM companies and employees.

I short, I don't think spending these public resources will reap NM in the short or long run. Please don't allow this installation.
