Comments: I am only in favor of expanded ski areas if the prices remain the same or very close. It is already very expensive to ski even if you purchase the early season pass. I am still VERY disappointed with Targhee resort for removing the family pass option. It had a negative impact on many more local families than individuals who were upset with the definition of "immediate family". Overall my comment is to please keep the skiing affordable for LOCAL families who do not average nearly the yearly income of families traveling to the area for vacation. Thanks for your consideration.
