Comments: I support the expansion of Grand Targhee. But only if it's core mission of supporting the local community with a great ski area is revived. Not many years ago midweek passes, winter one ride ups, and general lift ticket and pass pricing were much more in favor to lower income skier than it is today. There is also a need for a ski area(s) in other valleys nearby that should be allowed and enthusiastically supported if they are proposed and follow the same guidelines as places like Grand Targhee.
