Comments: I oppose a mountain coaster on Sandia Mountain. I think it would create too much traffic on the Crest Road. This road is already tough to maneuver with its many switchbacks. Adding traffic would increase the likelihood of accidents. I would question if there is adequate parking since parking for the ski resort is already too small during the ski season. But most of all, I would lament the loss of the beautiful forest and nature and wildlife that would result from this construction.

I hope you will NOT approve a mountain coaster on the Sandia Mountain. Thank you.
