Comments: I support the Targhee upgraded Master Plan. It is a an approved Ski Resort.

Targhee is a business and it needs to improve to be sustainable. There is plenty of wilderness out there.

The valley is growing and it is important to remember that 10,15, 20 years down the road, there will be substantially more people in Teton Valley regardless of how much this growth is resisted. The valley is growing and Targhee is a valuable asset that deserves to succeed.

I would like to see Targhee begin improving what has already been approved. Lifts (Peaked ASAP), Lodging, Restaurants, Parking, Employee Housing, Transportation, Retail Rental Ski and Bike Business. It needs to improve to be sustainable.

I would like to see a small Restaurant at the top of Dreamcatcher. It would be highly utilized in winter and summer.

Upgrade Dreamcatcher to a 6 person Chondola and move Dreamcatcher to Peaked.

Mono Trees is a great area to open up for gladed tree skiing on more west and north facing slopes.

First, open up South Bowl to guided back country skiing and determine if it would be possible to open safely and permanently.

I'm not a big fan of the proposed Crazy Horse Chair, however, it would eliminate a long traverse. Maybe as a last resort.
