Comments: The south fork of the Salmon is in my opinion the best wilderness river trip in all of Idaho and one of the best in the entire world. World class rapids, pristine water, and wilderness that is much more remote than many of the other Idaho backcountry classics. Mining in the headwaters of this drainage would be devastating to all who flock to this river each year. I personally make the yearly pilgrimage and will continue to do so as long as the water is clean and natural.
