Comments: Hi, I am retired and very disabled and would have loved to be able to travel to this mine site to walk around and see the wonderful work that Midas has done to repair and reclaim this property so as to resurrect this area to provide work for Americans and develop the Gold, Silver, Tungsten and Antimony, that this area abounds. I am very excited that we are getting very close to bringing this area back to life and providing work for Americans and clear streams for the Salmon to run after some eighty (80) years of neglect and disrepair. I thank Midas and all of the investors that have taken their time and money to help make it happen. Thank you all!
