Comments: I am a member of Friends of Cave Creek Canyon and an avid birder. For the past three years I have traveled to Portal to volunteer at the Visitor Information Center. The South Fork of Cave Creek is a national treasure for birders and other nature lovers. I wholeheartedly support the proposed plan to replace visitor facilities Which were destroyed by flooding some years ago. These improvements will enhance the visitors' experience and provide new opportunities for those with mobility challenges. I urge the Forest Service to move ahead with this project as soon as possible.
