Title:

Comments: I am a rancher living 8 miles north of Portal. I don't visit South Fork much, but I am a committed member of the community. My concern is the deep divide this controversy is causing. In a time when our country cannot afford to become more deeply divided, I value a cohesive community and feel that we must consider all opinions before acting on this proposal. Please consider putting this project on "hold" and inviting a wider range of alternative suggestions that consider the many environmental concerns mentioned in the comments. Frances Grill
