Comments: To whom it may concern,

I would like to express my support for allowing eBikes on Federal lands. My wife is recovering from a serious traumatic head injury after being kicked by her horse. She finds the riding her eBike a valuable aid in her recovery. She like to ride dirt roads, forest service roads and easy multi-use trails. We have visited Hartmans rock recreation area and she found the trails most enjoyable. I suspect others will also find eBikes useful for this. Please consider eBikes for inclusion in your multi-user trails plans.

Sincerely, Robert Feinberg
