Title:

Comments: I live next to a Regional Park and EVERY weekend when the weather is ok, I hear dirt bikes and E-bikes ripping up the trails. they are LOUD, omitting noxious gasses, and they tear up the grasslands and shrubbery and break tree limbs when they are in the way.

They do not PRESERVE ANYTHING!! They wreck the ecology and kill seedlings and everything else they run over. Please confine them to small spaces and understand that the exhaust they emit and the gas they use contribute to our accelerating disaster that is climate change.
