Comments: I am in full support of allowing ebikes anywhere bikes are allowed. More people need to be out in nature exercising and if this helps I'm all for it. I saw a 400lb guy riding an ebike on the trails last week and I know he couldn't ride those trails without assist. I was great to see and from the look on his face he was working hard but having fun with his friends. I know that ebike was changing his life. Personally I have asthma and it prevents me from riding with my friends like I used to when I was younger. The ebike has made me rediscover my love for biking and being able to ride with my friends again is great.

Thanks for listening,

Troy Nelson
