Comments: I support the proposed directive to revise current regulations to define classes of ebikes in accordance with structures developed and used nationally. This will allow the use of class 1 ebikes on FS trails where bikes are allowed, this is consistent with Colorado law where class 1 ebikes are considered to be bikes for use on all open trails. The expanded use of ebikes is coming and change is needed to keep the FS up with the times. Also accessibility is a key issue and ebikes allow more people to recreate in the outdoors without putting restrictions in place that do not reflect the fact that Class 1 ebikes do not impact the environment more than regular mountain bikes.
