Comments: I strongly support and encouraging class 1 ebikes to be allowed where all non-ebikes are allowed. There is no damage to trails caused by class 1 ebikes. In addition, class 1 ebikes allow portions of the public to access and use trails that they would not otherwise be able to access and use. For example, my friend is fat and bald and without a class 1 ebike he would not be able to ride on the trails with me. Granted, the fact that he is bald is not the issue but his fatness is. Without an ebike and access to trails he would just get more fat, which is not what any of us wants. Thank you
