First name: Michael

Last name: Mulligan

Organization: Teton Valley Back Country Horsemen

Title:

Comments: I am the President of the Teton Valley Idaho Back Country Horsemen of Idaho. My chapter and I (68 members) are 100% against the encroachment of electric-- and indeed, all motorized vehicles-- into our trails (Western Wyoming and Eastern Idaho, to be specific). And let's be clear: E-bikes are motorized regardless of the efforts to say otherwise. Our forests run the risk of being overrun. Our trails are under seige already from mountain bikes; these are dangerous enough for hikers and horsemen. DO NOT MAKE THIS BAD SITUATION WORSE. PLEASE CONTACT ME WITH ANY QUESTIONS
