Comments: I fully support allowing Class 1 E-bikes on all trails where Bicycles are allowed. I also support allowing all classes of E-bikes on all roads and trails open to motorized vehicles and motorcycles. Look to British Columbia for a reasonable approach to allowing E-bikes on trails, which is Class 1 E-bikes are allowed on trails where Bicycles are allowed with a few exceptions. I've been mountain biking over 30 years and a Class 1 E-bike allows me to continue enjoying the sport and maintain accessibility as age related issues arises.
