Comments: I agree with ALL of the Reservations and Concerns of the FOCCC on the South Fork Cave Creek Day Use Project.

One of my main concerns is the 4 month closure. More and more areas are closed to the general public, yet those of power, money and/or connections are allowed in these spaces that become closed. We find out we donate to a certain conservation group and then find out that those who have special connections to that group are allowed in. Further studies of impact need to be considered stated by the FOCCC. Limiting access in a fair manner may be an alternative to full closure.

People must experience a place with all their senses to love it. Looking at National Geographic and a Zoom presentation doesn't give a true love of a place. Reasonably limit rather than closure.
